

PAYMENT STATIONS TOUCH'N PAY

Information sheet v.O.58

Developments Remote Control

Designed for self-service, Touch'N Pay® payment stations are 100% tactile.

Our new station, equipped with a **22" screen**, completes the current range.

✓ Connected station:

- Remote control
- Smartphone application
- ✓ 22-inch screen
- ✓ Self4000: Contact & Contactless Banking
- ✓ Multi-language
 - Voice assistance
- Payment stand (optional)

Support base of the station (in option) *Height: 1000mm*

Standard base support

Payment stand including a coin counter and a banknote reader

The menu settings structure has been changed.

You can find the modifications in the screenshots of this information sheet.

I. INNOVATIONS

1.1 FREE SUPER CODE

In addition to the 6 free <u>single-use</u> codes, there is a <u>multiple-use</u> code: the super free code.

Unlike previous versions, this super code can be topped up and modified by Remote Control and is therefore visible on the Remote Control and the information statement.

Note that this code is only valid if the operator has access to Remote Control.

1.2 SUGGESTED SALE

After selecting your machine cycle, the station offers to add an additional product (e.g. washing powder, fabric softener, etc.).

With a single transaction, you can therefore pay for a wash cycle, detergent or fabric softener at the same time.

→ Note that this option requires an additional relay per machine (see installer).

→ How to set up this function?

In the *Selections tab*, check the "Suggested sale" box? and enter the number of the selection that will be offered as a suggested sale.

Name	Price	VAT (%)	Typical value				
Washing machine	1 200	10	7				

1.3 NEW START MODE

In case some machines need two impulses to start, instead of the usual one, it is necessary to check the "Double Impulse" box in the *Selections tab*.

1.4 COIN & BANKNOTE ACCEPTANCE CONFIGURATION

It is now possible to set the coins and notes that will be accepted by the pay station.

- → For coins: in the Settings tab Coin Counter
- → For banknotes: in the Settings tab Banknote reader

₹ 5000						

1.5 MULTI-CYCLE INTER-IMPULSE TIME

This setting allows you to modify the time between each impulse, in the event that a dryer does not display them in their entirety.

Example: 4 cycles ordered, but only 3 received by the dryer. By modifying this time, the dryer will receive 4.

→ Go to the tab *Parameter - Coiner*

1.6 DISPLAY MODES

MODE WITH MORE THAN 4 SELECTIONS

In the example above

• Home page

Icons with the different "universes"→ Washing, Drying, Laundry & Loyalty card

• Washing page

Display of 6 selections per page

• Payment page

After choosing your selection, access to the Payment page

MODE WITH UP TO 4 SELECTIONS

In the example above

• Home page

Icons with selections directly on the home page

→ Machine 1, Machine 2, Dryer 1, Dryer 2

Payment page

After choosing your selection, direct access to the Payment page

1.7 SIMPLY PAY®

We are delighted to introduce you to our latest innovation: The Simply Pay® smartphone payment application

You would like to increase customer loyalty? The Simply Pay® application is made for you!

→ Customers pay directly from their phone, via a loyalty wallet.

You also want to interact with them? With Simply Pay®, it is possible!

➔ Via GAD, you will be able to interact with users remotely and also follow their consumption as it happens.

And what are the advantages for the user?

- Consultation of the availability of the machines
- ✓ Notification of the end of the wash cycle
- Top-up bonus
- Reservation of a machine (optional)

The user benefits from special privileges as a loyal customer.

USE OF SIMPLY PAY®

- Download the Simply Pay[®] mobile application from the App Store or Play Store
- Create a user account
- Connect to the payment station by scanning the QR code provided
- Top up your wallet (top up bonus)
- Configuration completed

MODIFICATION OF THE MENU TREE

As a result of this Simply Pay[®] innovation, the HMI has been slightly modified.

1. Configuration with Simply Pay[®] AND loyalty card

- 2. Configuration with Simply Pay[®] ONLY
- \rightarrow QR Code directly on the homepage.

2. OPTIMISATIONS

2.1 UPDATE OF THE MACHINES ON THE PUBLIC PAGE

The method of automatic refreshment of the Public Page has been modified in order to eliminate latencies between the activity of the machines and their states on the Public Page.

2.2 OPTIMISATION OF FREE REMOTE SALES

Better management of free remote sales on multi-cycle programmed selections.

2.3 3G - 4G CONNECTIVITY

Optimisation of the connection with the remote control server, allowing interaction to be as fast when the station is connected to a router as when connected to a box.

→ The data reduction mode disappears.

2.4 FREE CODE USE

Optimisation of the procedure for using a free code: the user has an additional time to enter a free code on the station, from 20 to 45 seconds.

2.5 ACTIVATION OR DEACTIVATION OF LANGUAGES

Possibility to add 4 languages in addition to French and English and to choose the default language among these 6 languages.

Available languages:

- French
- English
- German
- Dutch

- Spanish
- Portuguese
- Italian
- Polish

- Russian
- Estonian
- Chinese
- Catalan

2.6 INFORMATION STATEMENT

- The information statement is now in the default language.
- Better display of the cumulative turnover when it is equal or higher than €100,000.00.

2.7 BILLING

When topping up with cash, you can now request an invoice at the end of your transaction.

2.8 GRAPHIC IMPROVEMENTS

CHANGE OF VISUALS

POP-UP OPTIMISATION

There are three types of pop-ups whose layout has been made more readable:

- Free sales
- Loyalty card balance
- Information statement by USB stick

CHANGE IN FONT SIZE

When renaming selections with a large number of characters, the font size is reduced so that the name appears in full on the screen.

12

1. PUBLIC PAGE: LOGO CUSTOMISATION

It is now possible to customize the Public Page by adding your own logo. To do this, simply go to the "Settings" tab and click on "Browse" as shown below:

■ ^{muge} N			
	NOME STATUS CONTROL CENTER EVENTS STATISTICS AUTO	MATION ACTIONS AUDITS INVOLCES PUBLIC PAGE IS

Browse			

2. DASHBOARD EXPORT IN PDF

In addition to the CSV format, the dashboard can be exported in PDF format. Simply click on the "Export dashboard" tab on the "Home" page. A banner appears with an option to export in PDF or CSV.

In order to set the <u>VAT rate</u>, you must go to the general settings located in the "Settings" tab:

	NTS STATISTICE ALTOMATION ACTIONS AUDITE INVOICES PUBLIC MAS S SETUNCS
	Borne tests 9010 -

3. GROUP ARCHITECTURE

You have several payment stations?

You have the possibility of architecting your stations to gain better control and a simplified vision of your activity.

You have the possibility of architecting your stations to gain better control

and a simplified vision of your activity.

To do this, simply go to the "Overview" page and the "Settings" tab:

=	TOUCH N			12) 12)			
•	Admin	Voe d'ensemble - paviliste au	Vue d'ensemble - FAIVLICH M

JUNE 2022

4. SIMULATED RETURN

If the busy returns are not wired and in order for the selection to be marked as "busy" in the public page, it is possible to activate a simulated return per selection.

In the example above: on the public page, machine 3 will be busy for 10 minutes.

5. ADDITION OF THE STATISTICS TAB

This tab allows you to have a detailed view of each of your selections:

- Date & time of the sale
- Payment method used

- Turnover
- Number of sales
